

Release 3.0.71

Bug fixes:

Search form:

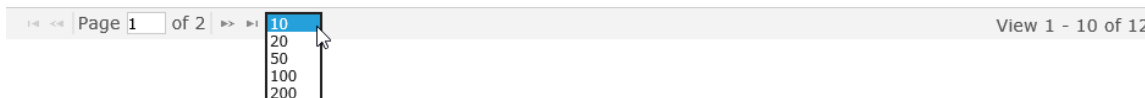

Both search functions, Simple search [1] and Advanced search [2], will now return, to the filled search form used for searching, when "edit search parameters" [3] is clicked.

Reference number	Title	Filed date	Date of IPsurvey entry	Tags	Departments
US xxxxxxxxxx	xxxxx [search_word] xxxxxxx	20-12-2013	19-05-2017		xxxxxxx
US xxxxxxxxxx	xxxxxxxxx xxxxxxxxxx [search_word] xxxxxxx	08-02-2013	19-05-2017		xxxxxxx

Number lists

Number of hits shown per list, can be altered from the default 10 in the drop-down menu to 20, 50, 100 or 200 and this setting is kept per list. The total number of hits is listed in the right corner.

Improvements for administrator

Alphabetically sorting

All list containing either user or departments are now sorted alphabetically. If a list contains more then one column, most columns can also be sorted e.g. low/high. This is indicated by the arrows

Date of IPsurvey entry ▾

at the end of the column name.

Tap - Users and departments [4]

Renaming "Orphans folder"

The folder Orphans has been renamed and font changed: "Users not belonging to any departments". This change is done to clarify that it contains users who **are not assigned** to any departments, e.g. suspended users. These users will have a blank dashboard, not be able to see any references in the database and will not receive any status mails.

Users not belonging to any departments ▾

Departments [5] are now sorted alphabetically.

Company database

Here you get an overview of company's structure. IPsurvey groups search results by departments and users can only see search results from the departments which he was assigned to. Please make sure that all your users relate to one or several departments.

A-department

B-department

C-department

Within each department it is now possible to sort each column alphabetically [6] or low/high. The user selected sorting will be remembered for each specific Department.

Number of user shown per list, can be altered from the default 10 via the in the drop-down menu to 20, 50, 100 or 200 [7]. This option is only available when the list have more then 10 hits. The setting is personal and will be remembered for each specific Department.

Email	Role in company	Status
<input type="checkbox"/> AAA@yyy.zz	Local administrator (IPLA)	Active
<input type="checkbox"/> BBB@yyy.zz	Local user (IPLU)	Active
<input type="checkbox"/> CCC@yyy.zz	Local user (IPLU)	Active
<input type="checkbox"/> DDD@yyy.zz	Local administrator (IPLA)	Active
<input type="checkbox"/> EEE@yyy.zz	Local user (IPLU)	Active
<input type="checkbox"/> FFF@yyy.zz	Local user (IPLU)	Active
<input type="checkbox"/> GGG@yyy.zz	Local administrator (IPLA)	Active
<input type="checkbox"/> HHH@yyy.zz	Local administrator (IPLA)	Active
<input type="checkbox"/> IIII@yyy.zz	Local administrator (IPLA)	Active
<input type="checkbox"/> JJJ@yyy.zz	Local administrator (IPLA)	Active

Tap - Export

When exporting [8] to either HTML or PDF the departments and user are automatically sorted alphabetically.

Company XX database

Here you can export most of the company's data to a PDF or HTML file. The exported data includes:

1. Company name and address
2. Departments and users
3. Search profiles

[Export to HTML](#) or [Export to PDF](#)
